

Leinster Bowling Club

Return to Bowling: To come into effect on 7 October 2020

(Updates shown in red)

1. Introduction

Leinster Bowling Club cannot accept liability for the safety of members as they return to play under the current arrangements. Active members are reminded of their obligations to comply with current legislation and Government and HSE guidelines regarding travel, interacting with others, social distancing, hand hygiene and respiratory etiquette, and any other matters relevant to their safety and the safety of others in the Club environment.

In particular members are asked to note that:

- The cocooning population may leave their houses for exercise but they should avoid contact with other people, even on a socially distanced basis. This advice does not recommend over 70's playing sport, however, it is not mandatory it is advisory: so individuals can make their own decisions. (Department Transport, Tourism and Sport)

While Leinster Bowling Club has put in place protocols for optimising safety during the COVID-19 period members must take responsibility for their own decision as to whether to participate in the activities of the Club at this time and whether they take personal protection measures (e.g. the wearing of face coverings) beyond those provided in the measures below.

The Leinster Bowling Committee has agreed these protocols for play during this period. Revised protocols will be agreed and issued as the season develops.

Player health (issued by BLI and LBLI)

- ii) If you are in self isolation you may not return to bowling for 14 days or until you have returned a negative test and are symptom free, whichever is less, as per HSE guidelines; and
